

Anika Therapeutics Reports Second-Quarter 2014 Financial Results

Total Revenue Grows 26% to \$26.3 Million Commercial Launch of Monovisc® Generates \$5 Million Milestone Payment Earnings per Share Increase to \$0.60 from \$0.40 a Year Earlier

BEDFORD, Mass.--(BUSINESS WIRE)-- <u>Anika Therapeutics, Inc.</u> (Nasdaq: ANIK), a leader in products for tissue protection, healing and repair, based on hyaluronic acid (HA) technology, today reported financial results for the quarter ended June 30, 2014.

Management Commentary

"Anika made continued progress toward meeting its business goals and delivered solid financial results in the second quarter," said Charles H. Sherwood, Ph.D., President and Chief Executive Officer. "Total revenue was up 26% from the second quarter last year, largely reflecting a \$5 million milestone payment associated with our U.S. license agreement for our single-injection viscosupplementation product, Monovisc®. Net income increased 58%, driven by the milestone payment and improved operating efficiencies."

"Operationally, our key highlight this quarter was the U.S. commercial launch and first domestic sales of Monovisc®," Sherwood said. "Monovisc® has been well-received by the orthopedic physician community, and it is generating results in line with our plans. In addition, we continued to expand our international viscosupplementation distribution network, while making solid progress on our product pipeline with clinical and regulatory advances for Cingal™ and Hyalofast™."

"Anika begins the second half of 2014 with strong momentum. We are successfully executing our strategy to expand our global presence in viscosupplementation. Cingal™ and Hyalofast™ are advancing toward commercialization. We are continuing to add the organizational and operational capabilities the company needs to expand beyond viscosupplementation and to deliver on its growth potential in the years ahead, and our product pipeline continues to be strong. As a result, we believe Anika is well-positioned for continued revenue growth and profitability in the quarters ahead," Sherwood concluded.

Revenue

Anika's total revenue for the second quarter of 2014 was \$26.3 million, compared with \$20.8 million in the second quarter of 2013. Second-quarter total revenue included \$5.0 million in milestone revenue associated with Anika's U.S. license agreement for Monovisc®. Product revenue for the second quarter of 2014 was \$21.3 million, compared with \$20.1 million in the second quarter last year. The increase in product revenue versus the prior-year period reflects the impact of product sales and royalty revenue associated with the Company's first U.S. Monovisc® sales.

Product Gross Margin and Operating Expenses

Product gross margin for the second quarter of 2014 improved to 75%, from 69% in the second quarter of 2013. This improvement was driven by a more favorable product mix, increased royalties from the Company's U.S. viscosupplementation products, as well as efficiency gains and a lower raw material cost for a key component. Total operating expenses for the second quarter of 2014 were \$11.1 million, compared with \$11.4 million a year earlier. Second-quarter research and development expenses were approximately equal to expenses in the prioryear period. Selling, general and administrative expenses were up 14% from the second quarter of 2013, primarily reflecting increased headcount related expenses, higher external professional fees and increased corporate governance costs.

Operating and Net Income

Operating income for the second quarter of 2014 was \$15.2 million, compared with \$9.4 million in the same

period in 2013. Net income for the second quarter was \$9.3 million, or \$0.60 per diluted share, compared with \$5.9 million, or \$0.40 per diluted share, in the second quarter of last year. Operating income, net income and earnings per share were higher year-over-year, primarily due to increased product gross margin, as well as milestone revenue related to the U.S. license agreement for Monovisc®.

Cash and Cash Equivalents

Anika's cash and cash equivalents at June 30, 2014 increased to \$84.9 million, from \$63.3 million at December 31, 2013. This \$22 million increase was driven primarily by higher income from operations, milestone payments, and stock options exercised during the period.

Conference Call Information

Anika will hold a conference call to discuss its financial results, business highlights and financial outlook tomorrow, Thursday, July 31 at 9:00 a.m. ET. In addition, the Company will answer questions concerning business and financial developments and trends, as well as other business and financial matters affecting the Company, some of the responses to which may contain information that has not been previously disclosed.

To listen to the conference call, dial 855-468-0611 (international callers dial 484-756-4332). In addition, the call will be available through a live audio webcast in the "Investor Relations" section of Anika's website, www.anikatherapeutics.com. An accompanying slide presentation also may be accessed via the Anika Therapeutics website. The call will be archived and accessible on the same website shortly after its conclusion.

About Anika Therapeutics, Inc.

Headquartered in Bedford, Mass., <u>Anika Therapeutics</u>, <u>Inc.</u> develops, manufactures and commercializes therapeutic products for tissue protection, healing, and repair. These products are based on <u>hyaluronic acid</u> (<u>HA</u>), a naturally occurring, biocompatible polymer found throughout the body. Anika's products range from orthopedic/joint health solutions led by <u>Orthovisc</u>® and <u>Monovisc</u>®, treatments for osteoarthritis of the knee, to surgical aids in the <u>anti-adhesion</u> and <u>ophthalmic</u> fields. The Company also offers <u>aesthetic dermal fillers</u> for the correction of facial wrinkles. Anika's Italian subsidiary, Anika Therapeutics S.r.l., provides complementary HA products in orthopedic/joint health and anti-adhesion, as well as therapeutics in areas such as advanced wound treatment and ear, nose and throat care. Its regenerative technology advances Anika's vision to offer therapeutic products and medical solutions that go beyond pain relief to protect and restore damaged tissue.

The statements made in this press release which are not statements of historical fact are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements include, but are not limited to, those relating to (i) the Company and its partner's ability to successfully commercialize Monovisc® in the U.S.; (ii) our ability to capitalize on the strengths of our viscosupplementation portfolio; (iii) our ongoing initiatives to improve performance across the business; (iv) our efforts and ability to strengthen and expand our international orthobiologics distribution network; (v) the Company's plans to continue to drive efficiencies in operations and manufacturing; (vi) the prospects for the Company's product pipeline, including viscosupplementation and regenerative product development; (vii) bringing Cingal™ and Hyalofast™ to market; and (viii) our expectations for future growth and profitability improvement in the guarters ahead. These statements are based upon the current beliefs and expectations of the Company's management and are subject to significant risks, uncertainties and other factors. The Company's actual results could differ materially from any anticipated future results, performance or achievements described in the forward-looking statements as a result of a number of factors including (i) the Company's ability to successfully commence and/or complete clinical trials of its products on a timely basis or at all, obtain pre-clinical or clinical data to support domestic and international premarket approval applications or 510(k) applications, or timely file and receive FDA or other regulatory approvals or clearances of its products, or that such approvals will not be obtained in a timely manner or without the need for additional clinical trials, other testing or regulatory submissions, as applicable; (ii) the Company's research and product development efforts and their relative success, including whether the Company has any meaningful sales of any new products resulting from such efforts; (iii) the cost effectiveness and efficiency of our clinical studies, manufacturing operations and production planning; (iv) the strength of the economies in which the Company operates or will be operating, as well as the political stability of any of those geographic areas; (v) future determinations by the Company to allocate resources to products and in directions not presently contemplated; (vi) the Company's ability to successfully launch Monovisc® in the U.S.; (vii) the Company's ability to provide an adequate and timely supply of its products to its customers; (viii) our ability to continue to successfully manage Anika S.r.l.'s business; and (ix) the Company's ability to achieve its growth targets. Certain other factors that might cause the Company's actual results to differ materially from those in the forwardlooking statements include those set forth under the headings "Business," "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as well as those described in the Company's other press
