About Anika Therapeutics, Inc.

Headquartered in Bedford, Mass., Anika Therapeutics, Inc. develops, manufactures and commercializes therapeutic products for tissue protection, healing, repair and regeneration. These products are based on hyaluronic acid (HA), a naturally occurring, biocompatible polymer found throughout the body. Anika's products range from orthopedic/joint health solutions led by ORTHOVISC®, a treatment for osteoarthritis of the knee; to surgical aids in the ophthalmic and anti-adhesion fields. The company also offers aesthetic dermal fillers for the correction of facial wrinkles. Anika's Italian subsidiary, Fidia Advanced Biopolymers, S.r.l (FAB), provides complementary HA products in orthopedic/joint health and anti-adhesion, as well as therapeutics in new areas such as advanced wound treatment and ear, nose and throat care. FAB's regenerative tissue technology advances Anika's vision to offer therapeutic products that go beyond pain relief to protect and restore damaged tissue.
